Resolution No. Rout.170

Station Madras, *Dated the* 10th January 1924.

From S. Wadsworth Esq., I.C.S., Secretary.

The Board of Revenue, Land Revenue and Revenue Settlement, etc. Separate Revenue.

Resolution Reference. N. Macmichael Esq., I.C.S., Commissioner of Land Revenue & Settlement.

Read the following:-

I

Memorial from the ryots of the flood affected areas of South Kanara District, and Endorsement thereon by G. W. Wells Esq., I.C.S., Collector of South Kanara, No. Ref. Ref. C.4295-23-A1, dated 14th December 1923.

II

Letter from G.W. Wells Esq., M.A., I.C.S., Collector of South Kanara, No. Ref. C.4295/23, dated 17th December 1923.

****

RESOLUTION.

Submitted to Government.

2. In the concluding sentence in paragraph 5 of his letter the Collector evidently desires that when the irrigated

crops in the 1st and 2nd crop seasons have either been lost or have failed and a third dry crop is raised - remission of half the assessment should be granted. On the analogy of Board's Standing Order No. 5 (2) a dry crop raised on a double crop wet land without the aid of Government water after the 1st and 2nd crops have - been raised would be considered to be not chargeable. In that case Board's Standing Order No. 13 (3) would apply remission would be granted in an ordinary district. If however the dry crop is a second crop then under Board's Standing Order No. 13 (11) dry assessment alone would be charged.

(True Extract)

SECRETARY.

To the Secretary to Government, Revenue Department.

W.C/11.1.1924.

B

To

His Excellency the Rt. Honourable

Sir Freeman Freeman-Thomas Baron Willingdon of Ratton,

G. C. S. I., G. C. I. E., and G. B. E.,

Governor of Madras in Council,

Fort St. George, MADRAS.

The Humble Memorial of the Ryots of the Flood affected areas of South Kanara.

Through

THE COLLECTOR OF SOUTH KANARA.

MANGALORE.

MOST RESPECTFULLY SHEWETH,

1. That your memorialists, in the course of preparing this memorial praying for remission of land revenue, have heard with feelings of deep thankfulness that Your Excellency's Government had been pleased to issue an order sanctioning remission in cases of single crop lands which had lost their only crop, as well as in cases of double-crop lands which had become unfit for the growth of the second crop owing to the deposit of sand or silt.

2. That your memorialists beg to represent that Your Excellency's generosity will not sufficiently meet the needs of the situation, if such remission be granted subject to the restrictions laid down in Board's Standing Order No. 14, 10 (iii), and further, if relief be not extended also to double-crop lands in which the second crop has been raised after the loss of the first crop.

3. That your momorialists beg to submit that the first crop is the most important crop and that, for the purpose of assessment, the yield from it has been calculated as being equivalent to three-fourths of the total yield for the whole year.

4. That the second crop threatens to be a failure in most places on account of insufficient rainfall in October and November and that this would be a great hardship in places where the first crop had been destroyed by the floods.

5. That your memorialists most respectfully beg to invite Your Excellency's attention to the fact that their losses are not confined to the destruction of their crops, but that in many places they have been stricken very hard by being rendered homeless and deprived of their personal belongings as well as of their tenants' home-steads.

6. That having regard to the circumstances above set forth and the poverty of the majority of the ryots affected, Your Excellency's memorialists humbly pray

(*a*) That remission of Government revenue in the case of lands covered by Government orders already issued may be granted to all pattadars irrespective of their other holdings or of the amount of assessment they pay.

(*b*) That remission to the extent of at least 3/4 of the revenue due may be made in cases where the second crop has now been grown after the destruction of the first crop.

And for these acts of Your Excellency's kindness and generosity your memorialists, as in duty bound, will ever be grateful.

192 . *Registered* 3-1-24 192

Subject:

Reference: Ky endorsement Ref.C.No 4295-23-W2 dated 14th December 1923 submitting memorial to Gover ment from ryots of South Kanara

loods - South Kanara - affected areas - remis ion of assessment - Memorial to Government from ryot Remarks submitted.

Ref.C. No. 4295-23.

Station Mangalore, *Dated the* 17th December 192

From (Name) G. W. Wells, Esquire, M.A., I.C.S.,

(Designation) Collector of South Kanara.

To The Secretary to the Government of Madras,

Revenue Departme
Through the Secretary to the Board Land Rev & Sett
Sir, Madras.

I submit below my remarks on the memorial of th ryots of the flood affected areas of this district in regard to remission of assessment. The concessions i regard to remission, sanctioned by Government in G.O.N Mis.1577 Rev. dated 26th October 1923 apply to the --- following classes of lands:-

1. 1 Class Wet lands and Patla lands which have been rendered unfit for any kind of cultivation during the fasli owing to the deposit of sand or silt -------

recognised subdivisions measuring less than one acre is not less than one acre in each survey field or subdivision, and

(2) mogaru lands which have lost their only crop owing to floods.

2. A reference was made by me to the Government on 7th November 1925 soliciting orders whether on the analogy of mogaru lands, II Class Wet lands registered as single crop lands on which the first crop was lost owing to floods may not also be allowed remission and whether in consideration of the fact that paddy is the standard crop in this district, the phrase "any kind of cultivation" occurring in para 2(iii) of the G.O. may not be held to refer to paddy cultivation alone. The Government --- however in G.O.No.Mis.1794 Rev., dated 6th December 1925 have expressed their inability to sanction the above -- proposals.

3. As the orders stand at present it will not be possible to submit the statement called for in para 4 of G.O.No.1577 Mis.Rev. dated 26th October 1925 till after the close of the current fasli, as we shall have to watch till then to see whether any kind of cultivation is raised on the affected I Class Wet fields even during the third or kolke crop season which lasts from February to May, during which period a third crop is raised on --- I Class Wet lands having a sufficient supply of water for artificial irrigation.

5. The denial of remission to any lands except --- those rendered totally unfit for any kind of cultivation during the fasli will be a real hardship to ryots who have lost their first crop on I and II Class Wet lands. The first crop has been considered to be the principal crop for purposes of assessment at Settlement - in the case of I Class Wet lands as the 2nd crop assessment has been compounded at ½ of the

assessment vide para 116 of the Deputy Commissioner's report at page 75 of B.P.No.41/R.S. dated 15th March 1902. There are also many cases of I and II Class Wet lands covered over by sand or silt, which by the industry of the ryot have been restored to some extent and rendered more or less fit for cultivation of a sort, generally of a dry crop, but the dry crop this raised cannot in my opinion be considered as a regular crop in the sense in which it was understood at Settlement for the purpose of fixing the assessment. Vegetables or gram crops growing precariously in the sandy soil of fields spoilt by the floods, as I have seen them, are no doubt a kind of cultivation, but I submit that their existence should not be taken as a ground for denying remission. They are solely chance crops sown for the purpose of getting something at least out of the land. B.S.O.13 (3) lays down that no remission can be granted on double crop lands unless all the crops grown are completely lost. I understand this to refer to paddy crops alone as the fitness of the land to grow paddy ought to be the test for remission, as it is the test for fixing the assessment. In cases where the first crop on I Class Wet lands was lost owing to floods and the second crop has been a failure, I am inclined to think that it would be fair to grant proportionate remission to the extent of at least half of the full assessment.

6. With reference to para 6 (a) of the memorial, the Government have already issued instructions in para 3 of G.O.No.1577 Rev. dated 22nd October 1923. I have taken the payment of Rs.75/- assessment as the standard. In the case of persons paying less than this remission will be recommended without reference to the state of the rest of their holding. In the case of persons paying more than Rs.75/- assessment, remission will not be recommended unless the area affected is a large part of their total holding.

7. There is a general apprehension that the second crop

this year may be a failure for want of the usual rains in October and November. I have issued a circular order to all Tahsildars and Deputy Tahsildars to report after a careful inspection on the state of the second rice crop in their respective divisions - a further report on this point will be submitted after their replies are received.

I solicit a perusal of my report Ref.C.4295-23-V7. dated 7th November 1923.

Your obedient servant,

20/12/23

From (Name) Milton Brown, Esq., B.A., I

(Designation) Sub Collector in

To The Secretary to the Government o

Reven

through the Board of Revenue, Land Rev

Sir,

The assessment on wet lands in th

when preparations for the second crop were in progress, and their attention was confined to the fitness or ---- otherwise of each affected field for raising the suggi crop of paddy without reference to the consideration -- whether any dry crop could be raised instead. The --- result is that except in the case of a few villages of the Coondapoor Taluk, no information is available ----- whether a dry crop could be or has been raised on the - fields noted as not fit for the second paddy crop; --- neither is it known whether a wet crop was actually --- secured on lands noted as unfit for 2nd crop.

2. A statement giving the information called for by the Government is herewith submitted in respect of - the fields in some of the villages of Coondapoor Taluk in which the inspecting officer has remarked that a dry crop was being raised. Such information is not avail- in the case of the other Taluks. If necessary, it e called for. The statement submitted herewith pective of the restriction imposed by para- iii) of B.S.O. 14 referred to in paragraph 3 o.Mis.1077, Revenue, dated 22nd October 1926.

3. The reference under reply was received by me the Jamabandi camp, Coondapoor on the evening of --- February

NOTES CONNECTED WITH A RESOLUTION ON MATTERS OF GENERAL PUBLIC INTEREST.

[For the meeting of the 28th January 1924.]

[SUBJECT.—*Remission of assessment on lands affected by floods in South Kanara.*]

LEGISLATIVE COUNCIL OFFICE.

Rao Sahib U. RAMA RAO :—

31 82. That this Council recommends to the Government the total remission of Government revenue for the current year in all cases of single crop lands whose crops have been washed away by the recent floods in the South Kanara district, as well as in cases of double crop lands, where, the first crop having been destroyed, the second crop also has not been raised on account of the accumulation of sand.

balloted

Mr. B. MAHABALA HEGDE :—

3 78. That this Council recommends to the Government that in view of the destruction of the first crop by the recent floods and of the scarcity of water for the existing second crop, remission of assessment to the extent of two-thirds may be ordered on all wet lands yielding second crop and whereon the first crop was destroyed by the floods.

balloted

Rao Sahib U. RAMA RAO :—

129. That this Council recommends to the Government that the remission of Government revenue recently sanctioned in respect of lands affected by floods in South Kanara may be granted to all pattadars irrespective of their other holdings or of the amount of assessment they pay and that, in the cases of lands where a second crop has been raised after the destruction of the first crop, remission to the extent of three-fourths of the revenue due may be made.

not balloted

REVENUE DEPARTMENT.

Please see the three resolutions above for the next meeting of the Council, all of which relate to the grant of remission of assessment on lands the crops on which were destroyed by the recent floods in South Kanara. They have yet to be balloted and after ballot will be included in the agenda only if more days are set apart for the discussion of resolutions.

2. Mr. Rama Rao's first resolution is covered by the orders issued in G.O. No. 1577, Revenue, dated 22nd October 1923. As the Member of the Legislative Council has already been furnished with a copy of the Government Order, the resolution may not be moved at all.

(T)

3. On receipt of the orders in G.O. No. 1577, Revenue, dated 22nd October 1923, the Collector of South Kanara in November 1923 recommended that I and II class wet lands which have lost their first crop but on which a second crop, wet or dry, was raised should be allowed remission. Even though the recommendation could not be justified under the remission rules, the Board of Revenue supported the Collector's recommendation in view of the unusual nature of the calamity and of the fact that the concessions would not cost Government much. The Government, however, vetoed the Collector's proposal as they considered that the concessions already granted in G.O. No. 1577, dated 22nd October 1923, were ample and that any further concession would lead to trouble in future and form an inconvenient precedent. Reference is in this connexion, solicited to Mr. Couchman's remarks on pages 9 and 10 of G.O. No. 1794, Revenue, dated 6th December 1923.

(L)

4. The recommendation in Mr. Hegde's resolution above and the latter portion of Mr. Rama Rao's second resolution is practically the same as that of the Collector which was not accepted by Government.

5. When submitting to Government the scheme report for the settlement of the South Kanara district, the Board of Revenue recommended that when the new rates were introduced, the ordinary rules regarding season remissions should be extended to the district. The Government observed that remissions on account of seasonal failure were granted as a matter of grace, that the rules regulating the matter were subject to alteration at any time and that remissions therefore formed no part of the settlement. As remission of assessment for loss of crop had never before been found necessary in the South Kanara district, the Government preferred to make no announcement in the matter—vide paragraph 17 on page 227 of G.O. No. 757, Revenue, dated 25th August 1902. All lands in the district on which two wet crops are regularly raised have been charged a consolidated wet rate of $1\frac{1}{4}$ times the single crop assessment and this charge must be paid whether a second crop is grown or not. Such lands correspond to compounded double crop lands in other districts which are eligible for remission only if, owing to excess or deficiency of water which is not due to ryots' default or neglect, no crop is grown at all or all the crops grown are totally lost—vide paragraph 3 of S.O. No. 13. In view of the unprecedented nature of the present calamity, the Government have in G.O. No. 1577, Revenue, dated 22nd October 1923, allowed as a special case remission in the case of such of the wet lands as have lost their crops totally or have been rendered totally unfit for any kind of cultivation during the fasli. The grant of remission of two-thirds or three-fourths of the assessment in cases where a second crop has been grown after the first crop has been destroyed by floods does not seem called for in a district like South Kanara where loss of a single crop by floods is a matter of ordinary occurrence.

The remarks of Mr. Couchman on the Collector's proposals of November 1923, which are extracted below, may be perused in this connexion :—

"The concessions already granted are ample and will, I fear, lead to trouble in future in case they are regarded as a precedent. *Every year* on the West Coast, some crops are lost by flooding, and to grant remissions for this will be introducing all the abuses of the East Coast system, which my settlement aimed at keeping out."

6. In the first part of his second resolution, Mr. Rama Rao recommends that the remission of assessment recently sanctioned by Government in G.O. No. 1577, Revenue, dated 22nd October 1923, in respect of lands affected by floods in the South Kanara district may be granted to all the pattadars irrespective of their other holdings.

Paragraph 10 (iii) of S.O. No. 14 lays down that in deciding whether relief is necessary or not, regard should be had not merely to the field affected but to the entire property or holding of the landlord or ryot to whom the field belongs and by whom relief is applied for. The Member of the Legislative Council recommends that this rule should not be given effect to in granting remissions. The Collector also made the same recommendation. The Government were, however, of opinion that the matter should be left to the Collector's discretion and issued orders accordingly —vide Secretary's remarks on page 87 and paragraph 3 of the order on page 93 of G.O. No. 1577, Revenue, dated 22nd October 1923.

Orders are requested whether any further information should be collected

N.K.—4-1-24. W.A.K.—5-1-24.

P. T. SRINIVASA ACHARIYAR—7-1-24

1. The request made in resolution No. 31 has already been granted in G.O. No. 1577, Revenue, dated 22nd October 1923.

2. That in No. 3 has been refused on the ground that double crop lands are not entitled to remission if they get one crop.

3. The request in No. 129 has been granted in part, the Collector being given discretion to decide whether the rest of the pattadars' holdings should be considered or not in granting remission. The papers may be printed first but the resolutions have still to be balloted.

Agreeably to what I said in the Council when Mr.B. Mahabala Hegde moved his resolution recommendin certain remissions of assessment in the South Kanara district I went into the matter fully and carefully along with the Collector Mr.Souter during my recent visit to South Kanara. The previous Collector Mr.Wells has made certain recommendations for remissions in South Kanara in view of the unprecedent floods in that district and the enormous loss that the ryots had sustained. Mr.Wells I understand made his recommendations after personally looking into most of the cases. I further understand that Mr.Graham also visited the place and some of the inspections were done by him and the Collector together. The present Collector Mr.Souter has also visited some of the tracts and he is in perfect agreement with the recommendations made by Mr.Wells. During my visit I visited some parts along with the Collector covering an area of about 12 miles. I recognise the fact that there is no precedent for remission of assessment in this District and that it is only under para 4 of B.S.O.14 as a special case that remission can be granted. It is agreed on all hands that this year's floods have been quite unprecedented and that there is a special case for remission of assessment in the areas where the crops have admittedly either failed or not been raised. The necessity for a special treatment this year has been recognised by the fact that remissions have already been ordered and granted under G.O.1577 dated 22-10-23 but the remissions made come to only Rs.743-4-0 in a

district which pays about 26 lakhs of rupees as revenue. The amount became so small on account of some of the restrictions that have been made in the orders without knowing the conditions of the district or the effect of those restrictions. The restriction of Rs.75/- assessment as the standard for remission and the words "any kind of cultivation" occurring in para 2 (iii) of the G.O. have practically nullified the benefit intended to be given under the G.O. An attempt was made by me to find out the amount involved by the grant of remissions as recommended by the two Collectors and the Collector assured me that it would not be more than 20 thousand rupees in all. Considering the vast damage that has been caused in the district which I have myself seen, I do not consider that a remission of 20 thousand rupees in an exceptional year like this and in a district which pays 26 lakhs, can possibly be grudged. I am emphatically of the opinion that the Collector's recommendations should be accepted in their entirety. They are confined only to cases where admittedly no crops have been raised or where crops have completely failed. The Collectors accounts show that crops in 3040 acres were wholly destroyed and that 1156 acres were completely silted or covered with sand. Removal of this silt and sand will cost considerable amount to many of the ryots and may take even two years. In this devastated area the recommendations are as follow:

1. Remission in cases where single crop lands have completely failed.

2. Double crop lands where first crop has completely failed and second crop could not be raised owing to damage.

3. Proportional remission where first crop has failed.

4. Such remission to be applied to all ryotdars who have suffered and not only to those who are paying Rs.75/- and less as assessment as this condition has

deprived most of the people of the relief intended to be given.

5. Remissions to be granted only when a whole survey or sub division number is affected and not in cases less than one acre.

The remissions to be granted this year need not be considered as "an inconvenient precedent for future years" inasmuch as we can clearly say that they are special concessions granted owing to the exceptional character of the damages this year. If, after all the admissions that have been made regarding the unusual nature of the calamity sustained by the ryots this year and the recommendatio received from the district officers and the Board of Revenue, we do not grant the small remission which is not likely to exceed 20 thousand rupees, I am afraid there will be very legitimate ground for discontent in the district. In one place of his note dated 21-8-23 on the South Kanara floods Mr. Turing says "I do not think it politic for "government to stand out altogether, and would "sooner risk a small sum than give the handle to "agitation which such abstention would afford." I agree in this view which applies exactly in the case under consideration, and hope that my Hon'ble Colleague C 1 will find it possible to accept the above proposals.

Y.R. 28.2.24.

I & my Hon'ble Colleague wishes to know the cost of the above Concessions to Twenty Thousand rupees the Collector may instructed accordingly. VRP. 28.2.24.

Circulated to C I

The Finance Department does not appear to hav been consulted. I should like to have the remarks of Mr. Davies and to see a copy of the report of the debate.

Dfc(i): Res no 1420 3880/24
1.2.24.

Remissions have never been given in South Kanara and in my opinion they should not have been given this year. As however Government have already accepted the principle I am merely concerned with the suggestions put forward by C.4 on page 9 ante at A. The recommendations are 4 in number:-

(1) Remission in cases where single crop lands have completely failed.

This recommendation refers I presume to the need Mogaru lands. If this is so Finance/~~may~~ not raise any objection.

(2) Double crop lands in which no first or second crop has been raised.

Finance may agree to this.

(3) Proportional remission where first crop has failed.

As the ~~remission~~ assessment is compounded at the rate of 1½. the full charge should in my opinion be levied if one ~~crop~~ crop has been obtained.

(4) Finance may agree that the remission be applied to all pattadars.

SECRETARY TO GOVERNMENT
5 MAR 1924
REVENUE DEPARTMENT

Extract from the fortnightly report of the District Magistrate, South Kanara, dated the 26th February 1924:--

x x x

The visit of the Hon'ble Member for Revenu had I think a distinctly good effect. Whatever th outcome of the visit may be I am inclined to think personally that the very small remissions which ar possible under the orders so far issued will be looked upon as more or less playing with the matte It would have been far better to have refused remissions altogether. Quite apart from the amoun involved if the requests put forward to the Hon'bl Member are granted the political effect in the villages is I think likely to be considerable. I a not as a rule in favour of remissions because I always think that Agriculturists must take the bad with the good. But in the present case from all accounts the floods were so enormous that they hav greatly struck the imagination and if Government recognise this as a very exceptional case, I think to put it bluntly, their 'kudos' will be considerab enhanced.

May the report of the District Magistrate, South Kanara be sent to Revenue for perusal?

G.R.F.T.
2-3-24.

Yes, but he is new to the District and I consider him wrong. Wholesale remission would have a very bad effect. They would be put down to timidity and would create a very awkward preceden There are floods every year in South Kanara.
